Office Action Summary

Application No.

09/890,035

Applicant(s)

BOCOLA, GIOVANNI

Examiner

Robin A. Hylton

Art Unit

3727

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 April 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 16-18 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 16-18 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☒ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of the restriction requirement in the reply filed on April 7, 2005 is acknowledged. In view thereof, the restriction requirement is withdrawn.

Claim Objections

2. Claim 16 is objected to because of the following informalities:
 - in line 13, "tightly closed" should read -- tightly close --;
 - in line 2, "a term such as "with or having or including or comprising" should be included after "container body"; and
 - in line 19, "said" should be deleted.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. Claims 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17 is drawn to a different invention from claim 16, yet is not written in independent form. Thus, it is unclear if the claim is intended to be an independent claim. If the claim is intended to be a dependent claim, the preambles are not the same. Claim 17 requires correction.

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Decelles in view of Schellenbach.

Art Unit: 3727

Decelles teaches a product container having a container body with an open mouth and at least a covering element formed as a single piece with the container body. Decelles does not teach an annular gasket of a second material on the covering element.

Schellenbach teaches it is known to provide a container mouth covering element with a annular gasket of a second material on the covering element.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to apply the teaching of an annular gasket to the covering element of Decelles. Doing so provides a better seal between the covering element and the container mouth.

Regarding the method claims, Decelles teaches at column 5, lines 46 and 47 that the covering element **531** is made integral with the container body **560** in the embodiment illustrated in figure 11. Schellenbach teaches forming a covering element with an annular gasket by a two-component injection molding method. It would have been obvious to one of ordinary skill in the art at the time the invention was made to use a two-component injection molding method to form an annular gasket on the covering element of Decelles. Doing so allows for forming a product container having an integrally molded covering element hinged thereto and an annular gasket on the covering element for a more effective seal between the covering element and the container mouth in a single mold.

6. Claims 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schellenbach in view of Mueller.

Schellenbach teaches a closure having an annular gasket molded onto a covering element, each of the annular gasket and the covering element being formed of different materials. Schellenbach is silent regarding a container body being formed with the covering element and hingedly attached thereto. It is to be noted that Schellenbach teaches circular ridges can be used instead of threads at column 5, lines 62-64.

Art Unit: 3727

Mueller teaches it is known to form a container body and a covering element in a single piece.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to apply the teaching of forming a container body integrally with a covering element to the covering element of Schellenbach. Doing so allows for a complete product container to be formed in a single mold.

Response to Arguments

7. Applicant's arguments with respect to claims new 16-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

9. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (703) 872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which

Art Unit: 3727

require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.

10. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

I hereby certify that this correspondence for Application Serial No. _____ is being facsimiled to The U.S. Patent and Trademark Office via fax number (703) 872-9306 on the date shown below:

Typed or printed name of person signing this certificate

Signature _____

Date _____

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robin Hylton whose telephone number is (571) 272-4540. The examiner can normally be reached Monday - Friday from 9:00 a.m. to 4:00 p.m. (Eastern time).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lee Young, can be reached on (571) 272-4549.

Any inquiry of a general nature or relating to the status of this application or proceeding may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
